CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA.

FRIDAY, FEB. 11, 1927.

California Ranch News

Cereal tests being tried throughout Solano county have been reported to the farm adviser's office.

Eradication of tuberculosis in livestock is one of the major activities slated for the department of agriculture.

Navel orange shipments have commenced from the Pomona valley packing houses and market conditions are reported fair.

Preparations are being made for the forthcoming annual Citrus Fair in Cloverdale, which will open its doors February 19.

County Farm Adviser Wallace Sullivan advises Kings county farmers to plant black walnuts as border trees, instead of cottonwoods and poplars.

The cotton slump of 1926 did not dim the optimism of the Sacramento valley growers, who are planning to plant several times the acreage of last year.

Shipment of Glenn county's big rice crop, which for several months has been lying in the warehouses in Willows has begun. The crop totals 3,400,000 bags.

The voters of the Eldorado irrigation district, at Placerville, will vote on February 16 on the issuance of \$1,300,000 in bonds to carry the district's project to completion.

Tulare county citrus growers will receive about \$13,500,000 for their 1926 navel, according to A. D. Knight, of the Mutual Orange Distributors, Porterville, who, with his staff, established headquarters in Porterville during the season just closed. About 4,500 cars were sent out.

Horticultural Commissioner E. S. Kellogg, Carpinteria, reports that an increasing acreage is being set to lemons in this and Goleta valleys. From 1550 acres set to lemons the output last year amounted to 241,840 boxes, valued at \$788,980. In 1925, the lemon crop amounted to 218,700 boxes.

The Bryson Brothers of Island, Kings county, have finished putting in five acres of mint and Roy Hamblin is planting his five-acre plot. The mint contractor has offered a bonus of \$500 above contract price for the best five-acre plot grown the coming season. About 140 acres are being planted.

John E. Graf, member of the Federal Horticultural Board, and senior entomologist of the United States Department of Agriculture, has been ordered to California to aid state authorities in solving the Australian tomato weevil problem causing concern in the territory south of San Francisco.

Revision of the California Fruit and Standardization act, as planned by Senator Herbert Jones of San Jose, is a necessity at the present time, according to announcement made by the state department of agriculture, who states that every important fruit and vegetable grown in California should be included in the law.

It is interesting to note, says H. E. Wahlberg, Orange county farm adviser, that of the fifty leading agricultural counties of the United States in 1920, 25 per cent of them were in California, and that Orange county ranked eleventh in total value of agricultural crops, in competition with over 2,000 counties.

Estimates of the winter crop of peas places the total acreage at 1200, according to growers in the Calipatria vicinity. The early crop has been harvested, the last large shipments leaving north-end shipping points about Christmas. February and March will mark the regular spring shipping period in spite of the fact that cool weather may retard the vines somewhat.

British ex-army officers may now buy poultry farms near Merced, from plans submitted in London, together with photographs of the prospective property. A syndicate handling lands south of Le Grand is seeking colonists in London. Each colonist is offered two and one-half acres of land, a house built from the plans approved in London, a garage with a car, 1,000 White Leghorn chickens and an established market. The colony will be known as British Poultry Township and is at present the property of Dr. Townsend Webb.

Golden State

News of Interest to All

Only two prisoners escaped from California's prison highway camps during 1926.

The Modesto Board of Education has commissioned architects to prepare plans for additions to the Modesto high school and college buildings.

A Tehama County Pioneers' Association has been formed at Red Bluff under the leadership of P. H. Coffman. It will seek marks and records of the county.

Plans are being completed by architects for a three-story concrete lodge and store building for Sacramento Lodge, Loyal Order of Moose. It will cost about \$35,000.

A system of street lights is to be immediately installed in Gerber under a contract signed by the Tehama County Board of Supervisors with the Pacific Gas and Electric Company.

A bond issue of \$100,000 will be submitted to the electors of the town of Ross, Marin county, to finance the purchase of a site and erection of a town hall costing \$22,000 and a new fire house.

Michael J. McCann, probably Grass Valley's oldest native son, is dead. He was born on the townsite in 1856 and had lived at Grass Valley all of his life, being engaged in mining for many years.

David McAulsen, Colusa, who crossed the plains to California in 1852 and since had made his home in the Sacramento valley, is dead at the age of 81. For 20 years he had made his home in Princeton in Colusa county with one of his sons.

The new outdoor substation of the Edison company at Redlands will soon be finished at a cost of approximately \$70,000. Most of the switches and lines are placed out of doors, and there is but one building in the big yards, that for the operator.

Attorney General U. S. Webb rendered an opinion to District Attorney Wm. J. Brown of Stanislaus county holding that while it is within the authority of school boards to declare school holidays, the boards, under the law, cannot order half holidays.

Building activity at Willows, is exceeding any record of the past ten years. There are fourteen houses which are under construction, just completed or contemplated. For the last six months houses, apartments and rooms have been hard to obtain.

Creating the 800 acres comprising Black Mountain, a 3,000-foot peak which pierces the sky of Watts valley, into a public park and game preserve for the "benefit of the people of his home county," the will of W. S. Cranmer, pioneer educator of the San Joaquin valley, who died in Fresno on January 3, has been offered for probate in the superior court.

A chapel building, devoted to the devotional services and musical features of the University of Redlands, classic in its exterior and dignified in interior treatment, is being built at the University of Redlands. The chapel will be 100x168 feet. The main part will seat 1,500, and there will be a choir loft that will seat 200.

The building costing \$180,000, an organ costing \$36,000 and the furnishings will bring the total expenditures to \$240,000.

Petaluma produced about 10 per cent of the country's egg output in 1926, according to the report of President S. S. Knight to the Petaluma Poultry Keepers' Association. "The world's egg basket," by producing about 34,000,000 dozens of eggs, made up 40 per cent of California's output of approximately 85,000,000 dozens.

According to the president's report, Petaluma ranchers received on an average 5 cents less per dozen for their eggs in 1926 than in 1925.

Architects are completing plans for a group of high school buildings for the Pittsburg High School district, at Pittsburg, Contra Costa county. There will be a two-story class C academic building to contain twenty classrooms and a temporary auditorium. There will also be a one-story frame and brick veneer gymnasium and a one-story shop building of the same construction. The cost of the improvements will be about \$180,000 financed by bonds voted by the electors.

The Days of '49, celebrated by Sacramento in May 1922, will be revived in 1929 if the members of the board of directors of the Sacramento Chamber of Commerce vote favorably on a request now before them. The possibility of holding a Days of '49 celebration in Sacramento has been submitted to the directorate by Arthur S. Dudley, secretary-manager of the chamber, and some definite decision is expected at their next meeting. The matter came up recently, but was laid over for further consideration.

Abraham Lincoln's Creed

I like to see a man proud of the place in which he lives. I like to see a man who lives in it so that his place will be proud of him. Be honest, but hate no one; overturn a man's wrong-doing, but do not overturn him unless it must be done in overturning the wrong. Stand with a man that stands right. Stand with him while he is right, and part with him when he goes wrong.

S. C. COUNTY NEEDS MILK INSPECTION

A movement for county milk inspection in Santa Clara County was instituted by the Los Gatos Board of City Trustees at their meeting February 7, when they went on record as favoring such a plan and resolved to get other cities of the county to prevail on the Supervisors to take up the matter. "This is a county matter," City Attorney D. T. Jenkins said. "Most of the dairies are outside the limits of cities and if each city has milk inspection there will be duplication and several dairies will have their milk inspected several times."

Trustee L. D. Mabie stated that Santa Clara County is rapidly filling up with homes and is in need of milk inspection that will not work a hardship of too much expense on any one community. He suggested that the county plan is the most feasible.

Miss Madeline Keith, health nurse, addressed the Board saying that the present method of dairy inspection for cleanliness is not adequate and that some laboratory test of the milk is desirable each week. City Health Officer H. C. Noble also spoke in favor of local inspection.

San Jose and Palo Alto are the only cities in this county having milk inspection and it is believed that they will co-operate with a county plan.

The matter of meat inspection was also brought up. The Board was advised by City Attorney Jenkins that to secure meat inspection the City of Los Gatos should pass an ordinance requiring all meat markets to have either state or federal inspection and that there will be no additional expense to the city for an inspector.

P. T. A. Anniversary

This month is the time for an evening meeting of the High School P. T. A., and it has been arranged for next Thursday, Feb. 17. Prof. E. A. Rogers of Montezuma will speak on "After High School, what?" There will be interesting music and as this is the thirtieth anniversary of the founding of Parent Teacher organizations, Mrs. W. E. Hart of Mountain View will conduct memorial services for the national presidents and past officers.

An opportunity may be afforded those who are not familiar with our high school class rooms to inspect the building and see for themselves the over crowded conditions and cramped facilities with which pupils and teachers are contending daily.

People entering California ports may expect their baggage to be examined with almost microscopic minuteness, the chief of the state department of agriculture announced. Mediterranean fruit fly, dreaded pest for crops of this state, was found alive in the baggage of a Los Angeles man, when he landed at San Pedro. This is the first pest of that nature to be brought to California and paves the way for heavier work on the part of agriculture inspection agents in examining baggage.

Simply because the elementary rules of sanitation were observed, fresh milk from the western part of the San Joaquin valley shipped without spoiling to Manila, in the Philippine Islands, it was announced in Sacramento by the state department of agriculture. Without observance of the rules laid down by the department, it is claimed, the milk could not be shipped to San Francisco without going bad, but now, without preservatives, it will keep several weeks under refrigeration.

CLUB WOMEN ENJOY MEETING

The attendants at Monday's meeting of the Country Woman's Club were treated to a very interesting program.

Mrs. E. C. Merrill, who was one of the day's committee played two beautiful selections of Mendelssohn's, his "Song Without Words" and the "Spinning Song." The topic for consideration was "Development of Our Language."

Mrs. Blaine read excerpts from an interesting article on "Our Word Shop," in which the work of revising and keeping up to date a large modern dictionary, was graphically explained.

This article stated that lexicographers do not create a dictionary but only record additions sanctioned by usage or coined in the progress of arts and sciences.

Mrs. Shaw had chosen a somewhat similar line but had incorporated gleanings from many sources into a paper. She traced the changes in the compilation of a dictionary from the earliest English Expositor, (a volume of 5080 words) and Ben Johnson's dictionary 1750, when the authors were attempting to establish their own ideas as to the right or wrong of words, to the present, when the people really determine them by use or disuse.

An interesting discussion followed.

Reports were given of the recent County Federation meeting at Los Gatos and Guest Day and We and Our Neighbors Club.

Mrs. R. H. Hyde reported that the waxing of the floor in the social hall had been the volunteer labor of Stephen Merrill and Leonard and Martin Shadle and a note of appreciation was sent them. All the work which kind friends do on the building and grounds without compensation, means that the day toward which the club is striving when the building will be free of incumbrances is a little nearer.

Rev. J. H. Bennett Called to Campbell

At a regularly called business meeting of the Congregational Church Sunday morning, a call was extended Rev. J. H. Bennett, recently arrived in this country from England.

Mr. Bennett has conducted the services of the church for the past three weeks and has already established many friendships among his people, who are enthusiastically welcoming him as their leader.

His plans for the coming of his wife, who is somewhat of an invalid, and his sister, are not completed as yet, and it may be some months before they arrive.

HOUSE-WARMING

Mr. and Mrs. Herbert Gardner who moved into their new home on Los Gatos road were given a house-warming party to celebrate the occasion. Following games and a service of refreshments they were presented with an iron fern stand. Those present were: Messrs. and Mesdames J. H. Bachman, L. Hendricks, Henry Gullick, D. A. McQueen and Lester Brackett with Mr. and Mrs. Gardner.

COMMUNITY ASTIR IN PREPARATION FOR OLD SETTLERS' DAY FEB. 22

Day Rounded Out With Kiwanis Minstrel Show For Chamber of Commerce

POPULAR CAMPBELL YOUNG PEOPLE WED

Two weddings have been consummated this week in the Joseph Bohnett family when his son, Karl U., and his daughter, Lois, were united in marriage. On Wednesday, at the Christian Church in San Jose, Miss Ilene McCarthy became the bride of Karl U. Bohnett, the Rev. McConnell officiating.

After a short honeymoon they will make their home at Perry station, south of San Jose, where he is in charge of a ranch owned jointly with his brother, Ralph.

Miss Lois chose Santa Cruz as the scene of her wedding where on Thursday she became the bride of Melvin T. Crews. Following their honeymoon they will live with her father and sister, Miss Grace, at the Bohnett home on Los Gatos highway.

Mrs. Crews will continue her work in L. D. Bohnett's office in San Jose. Mr. Crews is with the Shell Oil Company.

Hearty congratulations and good wishes are extended both of these young people who have grown to maturity in Campbell, and the life mates they have chosen.

CAMPBELL OFFICIALS APPOINTED BY CO. DADS

At the regular meeting of the County Supervisors, Monday, on the recommendation of Jos McKinnon of this district, John D. Blaine was appointed, Justice of Peace and Frank Coupland was appointed Constable of Campbell township. These men are both known here and their appointments meet with the general approval of the residents.

They are conscientious citizens and Mr. McKinnon may feel sure that their duties will be well cared for.

It is noticeable that all old friends are renewing their association with Judge Blaine. Are they playing against the day of reckoning? Nope.

Club Honors Member

Moreland Good Will Club held its regular meeting with Mrs. Edna Jones, Feb. 2nd. The regular business session was held with reports of the county federation meeting at Los Gatos. History Club. Reports from members ill were all encouraging. Mrs. Mc Bride gave interesting readings from several Motor Lands on the Re-Discovery of California.

A social hour followed during which time members gave our beloved member Mrs. Owen a bouquet of flowers from our own gardens, as a thought of her near birthday. We aped the We and Our Neighbors club by inaugurating a penny drill to help out with necessary things not wishing to pay for from the treasury. The hostess served dainty refreshments and adjourned to meet with one of our new members, Mrs. E. Thrift, Los Gatos, Santa Clara Road, Feb. 16th.

Institute Here

The W. C. T. U. will hold an Institute in the M. E. Church Tuesday, Feb. 15th, beginning at 10 a. m. A luncheon will be provided at noon. The afternoon session will begin at 1:30 and close at 4 p. m. The public is cordially invited to attend these sessions.

The program committee for Old Settlers' Day celebration has practically outlined the order for the events of the day. Through some mistake the list of committeemen was misprinted. The members of this are: Dr. W. I. Merrill, C. H. Whitman, Mrs. R. H. Hyde, Mrs. J. H. Campbell, H. C. Smith, T. A. Cutting and W. H. Stray.

The oldest children of Campbell community as reported to the Press are: Henry Campbell, Lena Rodeck, Charlotte Sutter and Parker Keith. Several boys and girls somewhat older who were born elsewhere and picked this county as a home place will also be present on the big day as reception committee.

J. E. Wiesendanger, one of the popular pioneer hustlers who is still doing that stunt will be chairman of the day and will see that all goes "merry as a marriage bell." The complete program will be published in the Press next week.

KIWANIS CLUB DRILLS FOR MINSTREL

Wednesday was Minstrel Day at Kiwanis luncheon and most of the hour was spent in drilling on the songs and choruses for the coming Minstrel show to be given by the Kiwanians the night of Old Settlers' Day, Feb. 22. Geo. Burrow was chairman and started the ball with a "darky" poem. W. Charles Robins was given a Kiwanis lecture and presented with his button as a new member. President Tac Cutting urged the men to remember the luncheon at Mountain View, Feb. 23, which will take the place of the local one. Kenneth Reynier and Albert Miller were the orchestral assistants at rehearsal. The show tickets were placed on sale Wednesday noon and reservations at the drug store show a very active market.

Bertha Bollinger and Dora Finemore, Campfires, assisted in the luncheon service.

Vic Holmes, pill mixer, will wield the pestle and deal the dope at next week assembly. Remember boys, dope comes high and somebody must pay for it.

CAMPBELL BOYS HONORED BY FREE

Congressman Arthur M. Free has made the following appointments to the United States Naval Academy at Annapolis.

Principals: John Sparks, Pebble Beach; E. Eberhard Quinn, Santa Clara; and Elwood Swane, of Campbell. Among the alternates are Will Robinson of Campbell, who is first alternate for Sparks and second for Swane.

These appointments are more feathers to Campbell's bonnet and the appointees are deserving. Here's success to 'em, may their shadows never grow less.

Mr. Free has taken a special pride in these appointees who are promising young men of his district.

C. of C. Monday

The regular February meeting of the Chamber of Commerce will be held Monday night at the Library. A full attendance of members and those interested in the welfare of our community is desired, as only matters of general public good are discussed and planned for.

New S. C. Mission Draw Many Tourists

Santa Clara's Old Mission under the
plans for the restoration, announced to-
day, will follow the lines of the original
Mission built in 1777.

Proposals to restore the handsome old
landmark, said A. B. Post, banker and
chairman of the Central California Re-
storation Campaign, are striking a note
of warm response, particularly among
the old California families and among
the friends of art and history. Post
added:

"Only one half of the total restor-
ation fund of \$150,000.00 is to be raised
in the Central California campaign. The
remaining \$75,000.00 is to be raised by
the Native Sons and Native Daughters
of the Golden West and the friends of
history in San Francisco, Los Angeles
and elsewhere.

"Upon its completion, the restored
Santa Clara Mission should form one
of the most impelling tourist attrac-
tions of California. The program of re-
storation comes as the first opportunity
for the residents of Central California
to work hand in hand for a worthy
purpose and to demonstrate to the en-
tire West that Santa Clara County and
Central California really know how to
achieve civic results."

Architectural plans for the structure
are nearing completion. They will em-
body the few remaining portions of the
ancient structure and while the shell
for the most part will be constructed
of concrete, the soft lines of the charm-
ing old adobe structure will be follow-
ed in detail.

CONG'L CHURCH

Next Sunday morning at 11 a.
m. will be the first Sunday ser-
vices of the new minister, Rev. J.
H. Bennett, since his acceptance
of the call to the church. It is
hoped that many friends will rally
to encourage the new minister in
his opening ministry.

The subject of the sermon will
be, "Except the Lord Build."

Also at 7 p. m. a social hour
will be held until 7:30 o'clock.
Refreshments provided. All are
welcome to come and greet Mr.
Bennett. From 7:30 to 8:30 di-
vine worship will be observed and
Mr. Bennett will give the mes-
sage.

CHURCH NOTICE

Odd Fellows Hall, Campbell.
Old Time gospel services every
Saturday at 8 p. m. Branch of
Upper room mission, Fourth and
San Antonio Streets, San Jose.
Come, and hear the unadulterated
truth. You are welcome.

KIWANIS MINSTREL, Feb. 22

CAMP FIRE NOTES

The Unalzi Camp Fire Girls
were entertained at a valentine
supper last Saturday evening at
the home of Dora Finnemore.
The supper was given by three
members of the group, Bertha
Bollinger, Vesta Blyther and
Dora Finnemore. The girls spent
the evening by playing flower
games which were enjoyed by
all. Some of the girls earned
honors by identifying ten flowers
by their odor.

Those present were, Miss
Howes, Dorothy Todd, Emmi
Berry, Yenni Berry, Ebba Swan-
son, Elin Swanson, Antonette
Zillmer, Ada Gardner, Ruth Bol-
linger, Bertha Bollinger, Vesta
Blythe and Dora Finnemore.

At the Camp Fire meeting held
last Tuesday the following new
members joined. Helen Buck,
Lorraine Robisi, Nellie Ruscigno,
Ether Helegard, Evelyn Jensen,
Mary Gorkovich and Anna Gurk-
ovich. After a short business
meeting the girls practiced some
new folk dances.

M. E. CHURCH
W. C. Robins, Pastor.

The Methodist Church and pas-
tor extend cordial greeting to Rev.
Bennett and pray Gods blessing
upon him and the Congregation-
al Church—"We be brethren in
the Kingdom and Patience of our
Lord Jesus Christ." Our S. S.
which meets at 9:45 is growing
nicely. We urge parents to come
with their children and also
other adult members of the
Church. At 11:00 Rev. E. P.
Dennett, editor of the California
Christian Advocate will preach.
You will enjoy hearing him. At
7:30 the pastor will speak on
"Lincoln, the Man and Christian."
He was "Honest Abe," "Gentle
Abe," "Peaceful Abe." Let us
gather to celebrate his memory.
Patriotic music.

Ladies Aid will meet on Thurs.
Feb. 16th.
Prayer and fellowship every
Wednesday at 7:30.

EASY STARTING

The motor on your car starts more
readily and there is less drain on the
battery, advises the Free Emergency
Road Service of the California State
Automobile Association, if the gas
throttle is set a little ahead of idling
point. It should not be moved while
starting.

"Woman Blows Own Head Off;
Blames Booze."—Headline. Shucks,
we believe it was the gun.

ABRAHAM LINCOLN

The custom of celebrating or commemorating
the birthdays of distinguished men and women
has its meaning. The remembrance of the day
when was born such a man of destiny as Abra-
ham Lincoln serves to summarize all of his
life's accomplishments.

The events that have taken place between
February 12, 1809 and the present time can well
serve as the counterpart of all former history.
For during this century and more there have
been not only marvelous political changes, but
great inventions and industrial progress beyond
comparison with any other age. Music and
literature have flourished. Means of produc-
tion have increased so that the mode of life has
been changed. Political solidarity has made pos-
sible a nation united, strong and of world-wide
influence.

Every school boy and girl knows the part that
Lincoln had in American history. But his birth-
day is remembered for more reason than that; for
his memory is held dear because he had a great
human heart, ever ready to respond to the hearts
of the people.

THE MAJORITY DO LESS

Liberty of thought and action is the basis of all
freedom. Anything that tends to direct the
legitimate activities of the people in arbitrary
fashion meets with resistance. Within the bounds
of reason, it is the thing a man wants to do, plus
the untrammelled right to do it, that determines
with him whether or not he is enjoying natural or
man-made freedom. And while the exercise of
choice is a dear privilege, the manner of action
may come in for certain criticism.

Organized effort, whether in religion, politics,
education, government, public development or
business, requires the undivided attention of peo-
ple, the unhampered forces of finance, and the
uninterrupted execution of the plans necessary
for accomplishment. There are many "paper-
members" of organizations and of society;
members in name only. No matter what needs
support—Elks, Masons, Odd Fellows, the
church, political party, Chamber of Commerce,
Board of Trade, Business Men's Association,
women's club, service club, charity or civic com-
mittee—there are always a few who do more than
their share, and a majority who do less. An or-
ganization prospers and renders good service in
proportion to the ability of that few to increase
until they become a part of the many. Then
things boom; otherwise they lag behind.

There are comparatively few people who are
able either financially or in point of time to make
a great many interests their chief objects of de-
votion. But nearly everyone can have at least
one major purpose for the advancement of the
community. Some can give money, others can
devote time, and others can give thought and
counsel. All can care. Every individual should
find his place of best help and then fill it for all he
is worth. If that place is the home, well and
good. It is at the church, the club, the lodge,
the public service, the forest, the mine, the shop,
the farm,—there is the place he can do well and
by so doing help all the rest.

Service in fact as well as in name is what dis-
tinguishes men and women in all levels of society.
Parading around as a "member" without giving
one's best effort to the matter in hand is not
membership, except on paper.

What the Latin-American countries want is
Greek to most of us.

Tooting your own horn is all right if you
play in the key of Co-operation.

A poor motor will knock when going up a hill;
and it's a poor citizen who will knock when busi-
ness is picking up.

Rollo Keesling

Funeral services were held
Tuesday from the family resi-
dence of Mr. and Mrs. A. C. Kes-
ling, for their son, Rollo, who
passed away Feb. 6th at the age
of 39 years.

Besides his father and mother,
there are surviving three sisters,
Mrs. Geo. L. Husted, Mrs. Earn-
est A. Abbott and Miss Wana
Keesling, and one brother, Mer-
wyn S. Keesling. Interment was
made at Oak Hill.

As the deceased had been
an invalid all his life
and suffered considerable pain
at times, his relatives and friends
can now think of him as happy in
the other world.

The Kaiser is going back to Germany
to find out if there's anybody there
who believed all that the Allies said
about him.

Do Something For Somebody

Do something for somebody somewhere
While jogging along life's road;
Help someone to carry his burden
And lighter will grow your load.

Do something for somebody gladly;
It will sweeten your every care;
In sharing the sorrows of others
Your own are less hard to bear.

Do something for somebody striving
To help where the way seems long,
And the homeless hearts that languish
Will cheer up with a song.

Do something for somebody always,
Whatever may be your creed;
There's nothing on earth can help you
So much as a kindly deed.

We wouldn't mind the government
having so many boards and commis-
sions if it wer not for the fact that
many of the boards are too hard and
narrow, and many of the commissions
too high

Distributing the Load

*The life of a man is like a
long journey with a heavy
load on the back.—Japanese
Proverb.*

By adding a little to his
load in the productive pe-
riod of his life, the wise
man lightens the burden
that must be carried in
later years. A few dollars
set aside in an American
Trust Company savings ac-
count now will make for
financial independence later

Campbell Students Attend Funeral Of Clara Nichols

Funeral Services for Clara Frances
Nichols, daughter of Mr. and Mrs.
W. K. Nichols of Union District were
held at the home, Monday, Feb. 7th, at
2 p. m., the Rev. H. H. Wintler officiat-
ing. The pall bearers were Robert
Feathers, Kenneth Downing, Clarence
Nelson, Emmet Nelson, Jack Monte and
Merle Gardner.

The Campbell Union High School,
where Miss Nichols attended, was dis-
missed and the students attended in a
body. There was also a large display
of flowers. Miss Nichols was born in
Los Gatos and was 16 years, 11
months and 7 days old. Interment was
made in Los Gatos cemetery.

She is survived by her parents, Mr.
and Mrs. W. K. Nichols, a sister, Betty,
a brother, Robert, and her grand-
mothers, Mrs. Lina Milligan and Mrs.
R. A. Crosby.

It is announced that the Southern
California Edison company plans to
spend \$223,000 in 1927 for electrical
extensions and reinforcements in the
Lancaster district, which includes
Palmdale, Mojave and Little Rock.
The money will be used largely for re-
inforcement requirements at the Del
Sur substation, the enlargement of
main feeder lines and extensions.

Mrs. Sarah Nash Ward, 96, who was
a pioneer of Sonoma county, died at
the home of her son, Judge Nelson
Ward, at Compton. Mrs. Ward resid-
ed for many years at the Little place
on Spring Hill, near Sebastopol.

The state ship building season. This
is the largest ship building season in
the world. The amount of steel produced totaled
2,400,000 tons.

Agricultural work will be
greatly extended in Merced county in
1927 is the prediction of the agricul-
tural extension office, following the
meeting of the county club council
in Merced recently. Over 250 club
members are expected this year, com-
pared with 150 last year.

SPEED BOATS

There will be more speed boats on
the bay at Santa Cruz this year than
ever before, as a result of the purchase
of a number of additional boats by
Santa Cruz operators. These additions
will double the number of speedboats
which will be seen in action on the
waters of Monterey Bay, opposite Casa
del Rey and the Santa Cruz Casino.
Many speed boat races are planned for
the coming season at Santa Cruz.

Town Tales Tersely Told

KIWANIS MINSTREL, Feb. 22

Miss Otterman has been confined to the house for several days but is able to be about again.

Mrs. Amelia Merrill is slowly recovering from a sudden attack of illness brought on by over exertion.

C. B. Miracle is putting in the finishing touches on a new four-room shingled cottage on Fourth street that is being built for rental purposes.

Andrew Johnson sold his home on Sunnyside Avenue to Mr. O. H. Krohn, who recently came from Warsaw, Wis., to make his home in Campbell.

F. E. Duncan was brought home last week following a slight stroke while on jury duty. He is reported considerably better and able to get about but still somewhat affected.

Mrs. E. G. Lanz and little daughter Francis left Friday for Long Beach where they will visit relatives and friends. They will visit at Taft on the return trip arriving home at fortnight later.

Doc "Lucie" Beall expects to move into his new home on Alice avenue Monday. He has enjoyed considerable "kick" in supervising and helping build this attractive residence and he will enjoy another by living there with his family.

KIWANIS MINSTREL, Feb. 22

200 Attend Evening School at Campbell

The Campbell Evening School is quite a popular place four evenings during the week. Two hundred adults are taking advantage of courses in Bookkeeping, Basketry, China painting, Shop work and Americanization.

Next week three new courses will be started. Thursday evening, dress making, and typing and Friday afternoon millinery.

The millinery class will be from 2 to 4 p. m. in the Cafeteria room of the Grammar School. The evening classes are in the H. S. building from 7:30 to 9:30. Anyone interested in any of the above courses are cordially invited to attend.

KIWANIS MINSTREL, Feb. 22

E. R. Kennedy returned Tuesday from his pleasure trip thru the south. He is renewing acquaintances with his son who thinks a man about the house is O. K.

George Blaine began his duties as ass't in the local bank Tuesday. George is quick and alert to grasp new ideas and should make a good banker. His friends are congratulating him on his good fortune in securing the position and wish him success.

The ladies drill team of Orchard City grange is sponsoring a Valentine Whist party for this coming Saturday night in the Community Hall of the Library, Feb. 12th. There will be a number of good prizes, and a pleasant time is assured all who attend. Admission and refreshments, 50c.

Franklin Hichborn Speaks at Grange

Mr. Franklin Hichborn gave a splendid talk on legislation at Sacramento before the Grange Tuesday evening. It was an open meeting and a good audience was present. Mr. Hichborn is a very forceful and convincing speaker and held his audience for over an hour with his revelations of how the big moneyed interests of the state work the legislature to secure laws favorable to themselves, while the people, the great mass of our citizens are working at their trades and professions absolutely unconscious of these tremendous forces working against them. He showed how the taxes rate put upon the farmer and ordinary home owner was very much higher than the rate paid by the larger corporations, while some of the smaller corporations were also made to suffer with the farmer.

His lecture was very unstrutted and listened to by a very appreciative audience who gave him a rising vote of thanks at the close. Mr. Hichborn was secured by our lecturer Mrs. Jessie McClesney, who promises us many more treats of a similar nature in the near future.

Prof. Rogers will speak on High School matters on Thursday, Feb. 17. Further announcements later.

Mrs. Cooley read an interesting paper on nuts as food, showing their great value. Dr. Merrill their great value. Dr. Merrill supplemented her paper with facts army. Mr. Keesling also gave some interesting facts about the keeping qualities of nuts, walnuts must be well sealed, that is the crack between the two halves must be tight all the way around the nut, to keep out germs of mold and decay. There is a great difference in varieties in this respect.

Past master Shelley spoke of the poultry meeting at San Jose lately, Mr. Hearst the speaker, he said, recommended any good laying mash as just as good for feeding little chicks as the so called growing mash which is sold for a higher price. This has been the writers experience for several years. He also recommended barley and milo maze as equal in every way to the higher priced scratch mixtures. This is also a fact the writer demonstrated to his satisfaction some years ago. At the present prices of eggs poultry men cannot afford to pay more for feed than is necessary. Miss Myrtle Arnett also corroborated these statements by saying they had saved from 50 to 75 dollars a month by watching the markets and buying the cheaper grains. The fact is that food, plump, bright and clean barley can't be beat as a grain or scratch feed of laying hens when fed with a good mash. The chemical analysis of barley shows it to be equal to wheat as food for any kind of stock and experience of practical poultry men proves this to be true.

Messrs. Copeland, Hedegard and others talked on grange hall and the raising of funds for the same.

Mr. Keesling spoke on the protection of road side trees, showing how many had been nearly ruined by workmen on telegraph and light lines. The matter was referred to a committee for study and to take such action as necessary.

A card party is to be held Saturday night at the library by the drill team, who promise us a fine time and something good to eat.

The next meeting of the grange which would come on Feb. 22, is postponed until the second Tuesday in March on account of the celebration in Campbell of Old Settler's Day on the twenty-second.

CAMPBELL—SAN MATEO

Campbell teams have had a dose of hard luck this year. The unlimited team is tied with San Mateo. Both lineups prove to put on a good show. The Campbell teams are not at the bottom of the list but they can put on a good game. The game will be played at San Mateo at 7:45 p. m. The teams have had no support away from home so lets show some spirit and give the boys a good turn out.

Do Something For Somebody

The U. S. marines are high and dry in Shanghai.

UNION DISTRICT

Mr. and Mrs. Lowell H. Grant entertained at dinner on Sunday, their guests being Mr. and Mrs. M. G. Lickie and Mr. Lickie Sr., Mrs. J. J. Cox and Lowell Grant Jr., of Oakland; Miss Ackin of Sioux City, Iowa, and Miss Vera Schultz of San Jose. During the afternoon the following guests called: Mrs. J. P. Schaffer and son, Phil of San Francisco, and Miss Viola Schaffer of Mayfield.

Mr. and Mrs. Arthur Robinson, Mrs. Clifford Feathers and son, Ernest, of San Francisco, were recent visitors at the A. M. Feathers' home.

Friends of Miss Marjorie Miller will be pleased to learn that she has recovered from her recent illness.

Mr. and Mrs. R. D. Sorsensen of National avenue are receiving the congratulations and best wishes from their friends upon the arrival of a daughter.

Mrs. George Rodgers and daughter, Jane of Oakland, are the guests of Mrs. Rodgers' parents, Mr. and Mrs. A. M. Feathers.

Friends of Miss Treillis Miller will regret to learn that she met with a very painful automobile accident while visiting in Oakland.

An interesting meeting of the Union Home and School club was held Tuesday afternoon in the school hall. Mrs. Edgar Ridley presided over the meeting.

Plans are being made for a whist party to be given by the club house some time in March, the time to be announced later. Delicious refreshments were served by Miss Carrill and Miss Fox, assisted by Miss E. Ridley.

The community party, which was to be held in the school hall Friday evening, has been indefinitely postponed.

The Union school will be closed for

Hi School Activities

There are only three more basketball games that Campbell will play in the league schedule this term. One of them is with San Mateo on their court and the other two against Redwood City and San Jose to be played at home. So far, Campbell has had a slump, winning only one game out of four, but we hope to overcome this obstacle and defeat the remaining three teams. Campbell has no chance for the league championship, however, but that does not hinder us from showing our spirit in the games to come.

Juniors

Arrangements are practically completed for the Junior party to be held at the home of Opal Overshiner in Willow Glen on Saturday night February 12th.

Transportation, refreshments, and entertainments have all been amply cared for so that a good time is assured.

The Junior class is the live wire class of school this year, having filled all three offices of the student body. Eugene Tainter, our retiring class president, is the student body president, Stephen Merrill is the student body vice president, and Miriam Blaine the secretary. All of these offices have been very ably filled.

Due to respect was shown to Frances Nichols by the students and teachers of the Campbell High School. Mr. Cramer gave all those who wished, permission to attend the funeral which was held Monday afternoon at two o'clock. The Seniors went in a group, taking the large school bus with them because Frances was a Senior and very much loved by her classmates.—Jack Murdock.

CAMP FIRE SPARKS

A Grand Council Fire for all Camp Fire Girls of the country was held in the San Jose High School gym last Saturday afternoon.

Preceding the Council Fire a very interesting and highly entertaining Red Cross demonstration was given. Some of our smaller Camp Fire sisters were used as victims of various imaginary disasters and were rendered skillful and efficient first aid.

The Council Fire was very impressive. Mrs. Louis Shelley and Miss Philoma Goldsworthy officiated.

Next Thursday evening the Santa Clara County Camp Fire Girls of high school age will meet at 6:30 for supper at the Y. W. C. A.

In the business meeting which follows the supper, officers will be elected for the school semester just beginning.—M. Blaine.

KIWANIS MINSTREL, Feb. 22

The first person bringing in the correct answer to this puzzle will get a free ticket to the Kiwanis Club Minstrel Show. Date, Tuesday evening, February 22.

Deep Water Port For Santa Clara County Proposed

Terminal at Alviso Would Make
San Jose Center of Manufacturing.

Proposal of a deep water port for San Jose, Santa Clara and Sunnyvale was made recently and the feasibility of constructing a port at Alviso is being considered more than ever before as a direct outlet for Santa Clara County's huge agricultural and industrial products and an inlet for raw materials. It is believed that San Jose has a desirable location for a manufacturing and distributing center for Northern and Central California.

To be suitable for sea going ships a channel 300 feet wide must be dredged 18 feet deep.

At Alviso, at the mouth of Guadalupe river, there is a depth of 21 feet at low tide. The entire body of land lying between the mouth of the river and the proposed canal head is of a tideland, marshy nature which can easily be handled by a suction dredger. The mouth of the river and territory lying next to the river from Alviso to the bay is the section annexed in 1912.

With the modern development of highway transportation, the location of a port at Alviso, just eight miles from the center of San Jose offers no greater distribution problem. Warehouses located at Alviso are within but a few minutes reach by truck.

The great possibilities of this project are sufficient to cause the intense interest of every progressive, local citizen, in the minds of those who put over the annexation in 1912.

A deepwater port at Alviso would serve Santa Clara, San Benito and parts of Alameda counties. Figures available from Santa Clara county indicate the potential freight tonnage which annually will become greater for deep water vessels.

The population of Santa Clara county is estimated at 120,000 persons. Agricultural products of Santa Clara county are estimated as follows: Fruit, 210,000 tons; vegetables, 217,000 tons; berries, 150,000 cases. Exportations are estimated as follows: Canned fruits

and vegetables, 100,000 tons; dried fruit 65,000 tons; garden seed, 1000 tons; miscellaneous soil products, 2000 tons.

\$200,000,000 BUSINESS

The annual business of industrial plants, wholesale houses and public service corporations in Santa Clara county is estimated at \$200,000,000.

These brief statements indicate the business possibilities already at hand.

S. C. Uni. Student To General Electric Testing Plant

senior student at the University of Santa Clara, has been selected from a group of engineering students for special study at the General Electric testing plant at Schenectady, New York, according to word received by the Rev. Cornelius J. McCoy, S. J., president of the University of Santa Clara, here today. The signal honor comes to Waterman for his exceptional scholarship in the university's engineering course, Father McCoy states. Waterman will leave early next fall for the big eastern plant, where he will be employed as well as given practical experience in his chosen profession.

Other Santa Clara students who won similar honors were James Harrison, of the graduating class of 1926, and Charles Harrington, in the class of 1925.

MR. MILLER SLEEPS LIKE LOG, EATS ANYTHING

"After taking Adlerika I can eat anything and sleep like a hog. I had gas on the stomach and couldn't keep food down nor sleep." (signed) R. C. Miller. ONE spoonful Adlerika removes GAS and often brings surprising relief to the stomach. Stops that full, bloated feeling. Often brings out old waste-matter you never thought was in your system. Excellent for chronic constipation.—Orchard City Drug Co.

DUMBARTON HIGHWAY BRIDGE

SINCE THE DUMBARTON HIGHWAY BRIDGE WAS OPENED ON JANUARY 15 MORE THAN 32,000 AUTOMOBILES AND TRUCKS HAVE PASSED OVER IT. THIS MAP, SENT OUT BY THE OWNERS OF THE BRIDGE WILL BE VALUABLE TO MOTORISTS WHO PLAN TO USE THE SPAN. IT SHOWS THE "LAY OF THE LAND" APPROACHING THE BRIDGE FROM ALL SIDES.

Dumbarton Bridge

Sightseeing motorists will not be allowed to park their automobiles on the new Dumbarton highway bridge over San Francisco Bay, nor along the approaches on the San Mateo county shore line, under a new ordinance passed January 17th by the supervisors at Redwood City. The ordinance makes it a misdemeanor to park automobiles at these points.

Campbell High Activities

ELECTION OF OFFICERS

The following students were elected last Friday to represent the school and its organizations: Student Body President, Eugene Tainter, Vice President, Stephen Merrill, Secretary, Miriam Blaine.

Girl's League President, Ruth Townsend, Vice President, Evelyn Jensen, Secretary, Betty Nichols.

Boy's Athletic Club President, Merle Gardner, Vice President, Stephen Merrill, Secretary, Clarence Nelson.

Senior Class President, Merle Gardner, Vice President, Hervey Voge, Secretary, Ruth Matteson. Junior Class President, Stephen Merrill, Vice President, Robert Newton, Secretary, Mary Gurovich.

Sophomore Class President, Helen Stray, Vice President, Margaret Tutt, Secretary, Wilhelmina LeGrand.

Freshman Class President, Eba Swanson, Vice President, Glen Willis, Secretary, Read Hall.

FISHING

All off for the fishing trip! Only it wasn't to catch fish—it was to look at the fish. The biology class, however, was very much delighted at the chance to go to the Gold Fish Hatchery in San Jose and gaze at the fish. The woman at the hatchery gave them a very interesting talk on fish explaining about the different species she had and how to distinguish them from one another. The members of the class were so charmed that they bought a few fish to bring back to their own Aquarium, but, sad to say, the climate did not agree with them and they are not doing very well.

If you are going to fish next week and you are unable to tell what kind of fish you have caught, call on the biology class.—Polly Maxon.

The value of field crops produced in Santa Barbara county for 1926 amounted to \$4,784,205, according to the annual report of E. S. Kellogg, the county horticultural commissioner. Beans produced almost half this value with returns of \$2,328,447 from all varieties. Alfalfa came second with a value of \$763,301, and grain brought a return of \$420,300. Flower seed growers produced 662,500 pounds of seed for which they received \$420,300. The report shows a production of 47,000 sacks of mustard valued at \$351,000. Sugar beets brought \$329,664. Onions are credited with \$38,929.

The Holtville district is to be tried out as a coffee growing section. Plans have been perfected for the erection of a coffee plant greenhouse on the ranch of Dr. W. F. Mosher two and a half miles northwest of Holtville. Enough seeds to produce 150,000 plants have been secured and castor beans will be developed to shade the young coffee plants. A plant for the extraction of the oil from the castor beans is a part of the plan of the group of men who are preparing to make this interesting experiment.

Golden State News of Interest to All

The thriving business activities of Glendora during the year 1926 have been due largely to the picturesque location and the unusual natural advantages of the city, which have drawn men of great wealth to the community. Approximately \$765,500 was paid in cash during the year for 188 acres of choice foothill citrus groves located within one and a half miles of the business center of the town. Half of this acreage brought \$5000 per acre. Much of the property was purchased by eastern business men who recognized the investment possibilities in a California orange grove as well as an ideal site for a winter home. There was also unusual activity in the sale of town lots and outlying real estate.

Nearly \$5,000,000 in tax money will be due the state government, it was indicated in records of the state controller recently. If the electric railway tax decision rendered by Superior Judge Peter J. Shields of Sacramento county last week is not reversed in expected appeals to the Supreme Court. In a case involving electric lines of the Southern Pacific Railroad Judge Shields held that all railroad lines, steam or electric, should be taxed uniformly at 7 per cent of gross receipts. Applying this ruling to all California electric lines which have been paying at 5 1/4 per cent, records show that state would receive \$4,926,000 in back taxes accruing since 1921 when the King bill tax increase became effective.

Declaring that his department is better equipped financially for fire prevention and suppression work than ever before in the state's history, State Forester M. B. Pratt began arrangements for a greatly strengthened state forest ranger organization and for co-operative fire fighting agreements with the various county governments looking toward the 1927 season of hazard in the timber regions. Under Governor Young's budget program, Pratt said, the state will have \$106,450 a year for fire fighting and prevention, including approximately \$29,979 from the federal government and \$10,000 to be collected from private timber owners under the compulsory patrol law.

It may be common knowledge in some quarters throughout California that hip flask salesmen frequently deal in "pint" containers decidedly undersize but it remained for the state government to recognize that fact officially. Charles F. Hayden, chief of the state division of weights and measures, announced that during the last year his deputies confiscated several thousand undersized bottles shaped exactly like those used to contain strong drink in the pre-Volstead days. Lying scales, cheating measures and undersized "pint" bottles confiscated during 1926 had a value estimated by Hayden at over \$35,000.

The University of California may acquire 35 acres of the 100-acre site of the California School of the Deaf in Berkeley, if plans now under way are successful. As a possible site for dormitories or experimental gardens, the northern 35 acres of the site, may be purchased by the university as the result of the introduction of a bill authorizing the sale of the land in the legislature by Assemblyman Harrison C. Kelsey of Berkeley. The school is to be moved to a new site in Alameda county, and, under the bill, the land will then be put up for sale.

More than 7,000 gallons of wine were dumped recently at the Carl & Arata Winery at Fulton by Deputy Collector of Internal Revenue William Shackleton. The vintage was destroyed at the request of the winery owners who had grown weary of paying taxes and not being able to find a market. In the big wineries of Sonoma county there are still several million gallons of wine, much of it made years ago. This is being kept for shipment on government permit for sacramental and medicinal purposes.

Influenza is sweeping Europe, but it will never cross the Alps if Mussolini sees it first.
